

TITLE:

Foreman

POSITION SUMMARY

As a Foreman and crew leader for Landscape Creations, you will be responsible for setting daily goals and managing your crew, while executing all on-site, day-to-day aspects of landscape construction projects to meet or exceed the project schedule.

Reporting to the Site Foreman or Production Superintendent, this position requires experience understanding project scope clarity documents, and supervising, delegating, and coordinating field crews in your area of expertise. For example, Landscape Crew Leaders are skilled at the shaping and grading of soils, and planting of large trees, shrubs, perennials, and sod. Hardscape Crew Leaders exhibit a depth of knowledge for building masonry structures such as walls, patios, and other custom features. Across both disciplines, the ability to operate and train others to use equipment in a safe, responsible, and effective manner, is a must. Ideal candidates will bring a proven track record leading crews in similar environments, as well as the ability to help mentor our crews in their professional growth and development.

Like all positions at our firm, we seek candidates who possess the key competencies that best fit with our culture and values. These include, but may not be limited to, demonstrating unwavering focus on quality and customer service, maintaining a team-centric mindset, managing time effectively in a fast-paced environment, and exhibiting professionalism in all communications.

COMPENSATION OVERVIEW

Landscape Creations offers highly competitive compensation packages which include health insurance, a 401k program with a 4% match, and paid professional development.
